

Pet fence installation steps

INSTALLATION STEPS:

1 Insert the two bases into each end of the support and tighten them.

2 Adjust the nut as shown in the diagram, screw the inner base to the bottom, and adjust the outer base so that the inner support bracket can fit snugly against the seat.

3 Insert the cover box with holes into the gap of the first layer above the bracket, following the illustration

4 As shown in the diagram, Please notice the direction of bracket.

5 Place the cover box with screws on the pet partition above the seat, Please notice the direction of bracket.

6 Next, combine the cover box with holes and the screw cover box.

7 Thread the screw through the hole.

8 Install the washer and screw nut.

9 Use a wrench to adjust and tighten. Installation is completed.
